Our 36th Year of Bringing Woodworkers Together

**The Next Meeting is 7 pm, Wednesday, May 31st,
at the Al Bahr Temple, 5440 Kearney Mesa Rd.
(behind the Hampton Inn)**

May Program: Gary Anderson and the Member Shop Team

**Dell Cover,
Program Chairman**

The New Member Shop!

This month's program is the one you've been waiting for...everything you wanted to know about our new Member Shop.

Gary Anderson and his entire team will be on hand to take us on a photographic tour of the new Shop. You'll be able to see the wide variety of equipment that will be available, the different features of the new facility and a preview of some of the activities already scheduled.

John Rieger, the Educational Director, will give a preview of the different types of classes that will be offered. Mike Howell, Safety Director, will go over plans for the safety training that all members will be attending. And Pete Sterling, Shop Director, will talk about various procedures, the shift supervisor position, and the initial schedule of operating hours for the Shop.

There will also be ample opportunity for you to ask questions. This should be a great program! We look forward to seeing you there! Hope to see you there, Del Cover

Taylor Guitars, Monday, July 10th

**Dale Stauffer,
Shop Tours Chairman**

Our next tour will be to Taylor Guitars on **Monday July 10th at 1pm**. There will be a signup at the May meeting to give a rough count of attendees. They limit the number on each group to around 20 so, if there are more people than that, they will arrange for another group about 15 minutes later with another guide. I will call them with a number so they can schedule a second guide. There will be no refreshments and the tour is a little over an hour.

The factory is located at: 1980 Gillespie Way, El Cajon, CA 92020. For directions go to: <https://www.taylorguitars.com/contact>

President's Message, **May, 2017**

Mike Davis, President SDFWA

Well, this is the merry month of May now and there is a lot of work going on in SDFWA.

First off, the Fair and the 36th Design In Wood Show kicks off in about a month. Ed and his team have been working hard getting ready for the exhibit and there will be a lot of work by the Fair team volunteers this month. If you are not already helping them, consider coming out. Give Ed a call and come out on May 15th to help set up for the Fair. I will be out of the country this year, but I have helped in the past and enjoyed it a lot.

Our Member Shop will be opening soon, after a bit of a struggle with the permit process. We have made it through that process now, but there is still a lot of hard work to be done and Tom Veatch is still looking for volunteers. So contact him if you care to help out at the shop. The location is a great one and will be even greater when we get equipment and tools in it, and there is actually woodworking being done. I want to say thanks to Gary, Pete, Tom, Jeff, and the rest of the Shop committee who have put in many hours in making this dream become a reality!

I also want to put a thank you out to Brian Blacksher. Brian took over membership this year and has been doing a great job with it, but he has also been volunteering in the shop doing drywall, painting, and other tasks needed to get the shop up and running. Brian is an example of how volunteering can be fun and really helps out the association. I really want to encourage those of you who don't already volunteer. Please give me a call and we will figure out how you can put whatever amount of time you have into fun, productive work that will really help your association out.

I spent a few minutes last week going through some digital copies of old newsletters and other stuff that Jeff Bratt gave to me. It was some of the oldest documents that we have on the Association. One document from Chuck Meecham talked about how Lynn Rybarczk, Richard Griebel, Chuck Masters, and Jim Cherry met with people from the Del Mar Fair in 1981 about a woodworking show and they were told they needed some kind of an organization. After the fair meeting, the four of them met in the parking lot, kicked in \$15.00 each and the "San Diego Fine Woodworking Association" was formed. Since then, we have had many changes, including our name since Fine Woodworking Magazine didn't like us using that title in our name; but we have grown into the largest woodworking association in the U.S. All starting with \$60 in a parking lot. (This story appeared in the Jan 2006 newsletter.)

So sometimes small things can produce great results!

~~~~~

## **2017 Design In Wood**

**Ed Gladney**  
**Special Events Chairman**

## **36<sup>TH</sup> Design in Wood Exhibition**

This is our 36<sup>th</sup> year. We have 331 entries from 182 exhibitors.

## **We still need more volunteers**

We still need volunteers to walk the floor. Especially the 4PM to 7PM slot and all shifts toward the end of the fair. It is not too late to

sign up, but after May 8<sup>th</sup>, you will need to pick up your tickets at will call. There are still a few slots left in the chair shop, but we really need floor walker slots filled. Please consider signing up for a shift or two. Remember that this is your show. It has become the largest show of its kind in the country. We need your help to keep it as the best show possible.

## Help us make DIW a big success!

The Design in Wood Exhibition opens on June 2<sup>nd</sup> and runs through July 4<sup>th</sup>. In order to properly staff the exhibit, we need volunteers to walk the gallery floor and to help make chairs in the 19th Century workshop. Absolutely no experience or special skills are needed for either of these positions. Whatever you need to know will be taught to you when you show up for your shift. There are several advantages to donating some of your time:

1. On the gallery floor you will have an opportunity to examine the entries, rather than just walk through quickly and glance at them. Fielding questions from the public could draw your attention to details that you might otherwise have overlooked. (Don't worry about questions to which you don't know the answers. You can always ask one of the staff members who will be nearby).

2. Working in the chair shop allows you to work with hand tools that you might seldom use. (Don't worry if you don't know how, because you will be given a short lesson, and you will look like an expert to the public.)

3. For each shift, you will receive two fair tickets. Sign up for more than one shift and you might collect enough tickets for you, your family, your friends and neighbors. You must use one (1) ticket for yourself to enter the fairgrounds each time you come for your shift.

4. Sign up for closing shifts on the gallery floor and receive four (4) tickets per shift.

## HERE IS THE EASY WAY TO VOLUNTEER:

**Sign up online:** Click [here](#) and you will be taken to a log-in page on our website. Log in using your email address and your membership number (shown on your membership card). If you have trouble logging in, you can get help from Jeff Bratt at [webmaster@sdfwa.org](mailto:webmaster@sdfwa.org). After logging in, you will be taken to the page showing the **Volunteer Schedule**. Click on one or more time slots to volunteer, and after you are sure of a choice, click ASSIGN TIME at the bottom of the page.

Ed Gladney Coordinator, Design In Wood

## ~~~~~ Member Shop Project

**Gary Anderson,  
Member Shop Chairman**

The final stages of the build out of our new Member Shop are now in high gear. We finally received a building permit from the City (one of the most difficult tasks I've ever been involved with). As I write this, the walls have been framed, electrical has been run, and dry wall is going up! We can now see what each of the different spaces will look like and it's very exciting!

We have a new Education Director, John Rieger. He has an extensive background in education, but is a very down-to-earth guy with a lot of woodworking experience. He is working hard on a number of fronts. First, he is scheduling the initial training for our shift supervisors and finalizing the safety training program all of us will need to complete. Second, he is arranging for a wide variety of both project and skills based classes for our members. And, he is also working with Bob Bostic to develop an "Introduction to Woodworking" program that is going to help us introduce new people both to woodworking and our Association.

Many of you have asked how you can help. Jim Strawn suggested one answer: We have established a "List Registry" on Amazon.com. Think of this as a "Bridal Registry" for tools! We have listed all of the remaining hand tools, small power tools, and supplies that we still need for the Shop. You can go on to Amazon; pick out an item that suits your budget; complete the purchase and it will automatically be shipped to the Shop in your name. Just go to Amazon.com, search "find lists" and enter "SDFWA". Or, just click on this link: [https://www.amazon.com/gp/registry/wishlist/21HGK584IP22K/ref=cm\\_wl\\_list\\_o\\_2](https://www.amazon.com/gp/registry/wishlist/21HGK584IP22K/ref=cm_wl_list_o_2).

Another exciting development is seeing our members begin to look forward to what our new Shop can really be. Chuck Meacham, who has a strong interest in wood carving is

starting up a carving group that will meet bi-monthly at the Shop to swap ideas, learn from each other and periodically present guest carvers. Jim Strawn is talking about starting a toy group. This is just the start of finding new and exciting ways to use our new Shop to our members advantage!

If you have already signed up for membership, you will be getting regular emails keeping you up to date on the shop opening date and availability of dates for safety training. If you don't yet have a shop membership, we hope you'll go to the sdfwa.org web site and sign up.

Del Cover has invited us to present the new Shop to you at the May General Meeting on May 31st. We look forward to seeing you there, showing you the latest and answering all your questions.

Gary Anderson  
Member Shop Chairman  
619-670-1181 [Pinz711@aol.com](mailto:Pinz711@aol.com)

## **NO MORE WOODWORKING BOOKS, VIDEOS, AND MAGAZINES**

Did you enjoy getting magazines, books, and videos during the SDFWA general meetings that members brought for your inspiration and education?

If no one volunteers, this service will not start up again as Mike Switalski, our wonderful volunteer in the past, has had to discontinue doing this for you.

It could work, if we can get several volunteers to be responsible for three to five milk boxes of items, set them out on the tables; and, then collect them at the end of the meeting. They can be brought in and taken back at a side door just outside the book table area.

**Please call Lynn Rybarczyk 619-741-5405 for volunteering. Thank you.**

## **Member Opportunity to Serve**

Anyone interested in helping Bob Stevenson with the Mentor Program please contact him at: Bob Stevenson, SDFWA Chairman, Mentoring Program

619-253-7338 cell  
619-422-7338 house [bobscww@cox.net](mailto:bobscww@cox.net)

**To View the Officer and Committee list go to:**

<http://www.sdfwa.org/sdfwa-officers-and-committees/>

**May Raffle**  
**James Strawn,**  
**Raffle Program Chairman**

1. DeWalt 12 volt Driver/Impact Combo Kit
2. Rockler Gift Card
3. Lie-Nielsen No. 102 Small Block Plane
4. TH&H Gift Card
5. Lie-Nielsen Tapered Dovetail Saw

## **Toy Program**

**Roger Solheid, Toy Program Chairman**

Since our last report, the following toys have been completed in 2017:

|    |            |               |
|----|------------|---------------|
| 9  | Baby Beds  | Norm McHugh   |
| 10 | Cars       | Paul Trebbien |
| 20 | Train sets | George Byrne  |
| 10 | Cars       | Charlie Brown |

Our toy production total for the period was 49 and 400 for 2017.

## **Pro Bono Report**

**James Vitale, Pro Bono Chairman**

In March, James delivered toys to:  
Trinity Luthern Church  
Our Mother of Confidence Catholic Church

In May, James delivered toys to:  
La Jolla Presbyterian Church

# San Diego Fine Woodworkers Association Proudly Presents the

## 2017 Fall Seminar

*Andy Rae*

**September 15, 16, 17, 2017**

Andy Rae has been working wood for over three decades, designing and building furniture as well as teaching and writing about the craft. His work has been featured in galleries, museums, and in the homes of appreciative clients around the world. Andy has authored over 100 articles for woodworking publications such as Fine Woodworking, American Woodworker, and Woodcraft Magazine. He has authored five books, including Furniture and Cabinet Construction (2001, Taunton Press) and Working with

Wood (2005, Taunton Press). Andy worked with George Nakashima and Frank Klausz before founding his own woodworking business. He has been awarded a New Jersey Council of the Arts Fellowship for his furniture designs. Rae spent six years on staff with American Woodworker magazine when it was owned by Rodale Press. As senior editor, he published articles by woodworking enthusiasts and penned numerous bylines. He wrote his first woodworking book in 2001 (Furniture and Cabinet Construction, Taunton Press) and has since authored four more, including Working with Wood (2005, Taunton Press). In addition to making furniture and writing about it, Rae teaches regularly at schools and clubs. Probably his biggest thrill (besides woodworking) is tooling around the mountains of Western North Carolina on a motorcycle, often with a sidecar attached and kid or two-and sometimes a tongue-wagging dog-in tow. He currently works in Asheville, North Carolina, making furniture as well as teaching and writing about woodworking.

**Besides the lecture and presentation, your registration includes;**

- 3-day seminar Friday evening, Saturday and Sunday
- Breakfast rolls, donuts, coffee and juice each morning
- Catered hot meal lunch – Saturday and Sunday
- Soft drinks, coffee and snacks provided all day

**PLUS**

**DOOR PRIZES THROUGHOUT THE DAY**

**\$130 - SDFWA members**

**\$160 - non-members (includes 2017 SDFWA membership)**

## **Bob Stevenson's Shop Tour**

### **Report**

**Article and Photos by Adrian Larson,  
Editor**

The weather was wonderful for the Bob Stevenson shop tour this past April 29<sup>th</sup>, which was fortunate as it was well attended. Bob began by inviting the attendees into his shop, where he gave a little talk about his life. Bob spoke about his early work experience, his service in the navy, and how he became a woodworker. He runs a one-man shop which turns out museum quality furniture reproductions, and other commissioned furniture.

Bob prefers to use hand tools for most operations. He inherited many planes and tools from ancestors on both sides of his family. His power tools are basic, among which is his Powermatic 66 table saw. He often uses a 7" blade by Tenryu, which is only 1/16" thick, to slice inlay stock. This saves expensive lumber, holly for example, with its thin kerf. Bob also has other power tools often used in preparing rough lumber for working with hand tools.

Bob also spoke about his extensive inventory of lumber: old-growth English white oak, eastern white pine (his favorite secondary wood), rare Cuban mahogany, among others. He also has a large supply of red maple, and split red oak logs, which he keeps under water and uses for chair building. He harvested this lumber from family owned property in New Hampshire.

Outside his shop, Bob had a work table set up where he demonstrated some of the techniques he used in creating a Federal Secretary with tambour doors. Bob was able to obtain plans for this case by Robert Millard.

Bob Millard used a technique of inlaying the bell flower swags in veneer and then applying the inlaid veneer onto the strips. Bob showed us his method of making the strips from solid lumber, and then inlaying directly onto them; thus avoiding the use of veneer in the process.

Bob had pieces of stock clamped together on the work table. He then inlaid the bell flowers into the clamped up strips. This was done using a sweep with square corners; not a

sweep with rounded corners one uses for carving. The depth of cut is 1/16" for

the holly inlay pieces.

Next, the holly bell flowers are cut from the holly stock using the same tool.

The bell flower pieces were the inlaid into the strips.

The edges of the strips are then beaded with a beading tool.

The beaded strips which make up the tamboor door face are then glued to a canvas backing.

.Bob also demonstrated stringing and inlay on legs

Bob also demonstrated sand shading, some of which can be seen on the inlay on the legs.
